Alert: Provider Access to Cost Comparisons Unavailable Until Fourth Quarter

As part of our commitment to continuously improve our new Find a Doctor Tool, we're enhancing provider access to cost comparisons. While this important work is in progress, **provider** access to cost comparisons within the tool is unavailable until the updates are completed. We anticipate this work will be finished and access restored by the fourth quarter. We'll update you as soon as it's available.

Important note: This does not impact **member access** to cost comparisons. Members can still use our secure online tools to compare costs and treatment options.

For More Information
If you need information for your patients about cost comparisons, please contact your Provider Network Executive or call Physician and Provider Relations at 800-722-4714.
