Get better care at a lower price

Get the highest value of care by designating a primary care provider (PCP). That way your PCP will get to know your health history very well and your copay will be lower with each PCP visit.

Here are a few things to keep in mind when making your decision to designate a PCP:

- You can choose a PCP from many types of healthcare providers– family or general practice doctor, internist, pediatrician, obstetrician/ gynecologist (OB-GYN), physician assistant, or nurse practitioner.
- You have the flexibility to choose a different PCP for each member of your family covered by your Premera Blue Cross health plan.
- Let Premera know your PCP selection before your visit to ensure you get a lower copay. **To make your selection:**
    1. Sign in to your account on **premera.com**.
    2. Choose Primary Care Provider (PCP) under the Find Care heading.
    3. Select or change the PCP for each member of your plan. You can select any provider who is accepting new patients or who is already treating you.
    4. Call customer service at the number on the back of your ID card if you need help selecting your PCP.
- Should your health needs change, you can switch your PCP at any time. Be sure to notify Premera of your new PCP selection.

A PCP provides preventive care, identifies and treats common medical conditions, coordinates care, and makes referrals to medical specialists.
