Introduction to Premera Blue Cross Medicare Advantage Plans

Premera Blue Cross offers Medicare Advantage (MA) plans in King, Snohomish, Pierce, Spokane, Whatcom, Skagit, Lewis, Stevens, and Thurston counties. Premera Blue Cross Medicare Advantage Plans are required to meet the Centers for Medicare & Medicaid Services (CMS) requirements for Medicare Advantage. Providers who provide services and supplies to Premera Blue Cross Medicare Advantage plan members must have Medicare certification and not be excluded from participating in or have opted out of the original Medicare program.

Online Tools

**Medical**
Visit the Premera Blue Cross Medicare Advantage medical provider landing page at premera.com/wa/provider/medicare-advantage to access the following tools:

- **Find a Doctor** - Quickly find physicians and other providers in our networks
- **Eligibility & Benefits** - Check eligibility and benefit information for members, including deductible and benefit limit accumulators
- **Claims & Payment** - Check claims status
- **Referral and Prior Authorization** - Manage referrals and prior authorizations online
- **PCP Roster** - Quickly identify your assigned patients
- **Resources** - Access medical and pharmacy Part B policies, clinical practice guidelines, and forms

**Dental**
Visit the Premera Blue Cross Medicare Advantage dental provider landing page at premera.com/medicare-advantage-dental. The following tools are available:

- Find a Doctor
- Eligibility & Benefits
- Claims search
- Explanation of Payment Search
- Reference Materials
Member Identification and Eligibility Verification: Medical

Here is an example of a Premera Medicare Advantage member ID card.
Member Identification and Eligibility Verification: Dental

ID cards for Medicare Advantage patients with dental coverage are the same. Dental will be listed on the bottom of the card if the patient’s plan includes the dental benefit.

Please remember that the member ID card is not a guarantee of eligibility. To check eligibility and benefits, use our online MA Patient Inquiry Tool or call the number on the back of the member ID card.

Interpreter Services

Premera Blue Cross Medicare Advantage will cover American Sign Language for Premera Blue Cross Medicare Advantage members when the services are ordered by a provider’s office or Premera Blue Cross staff.

Basic Medical Health Benefits

Benefits are provided in the following general categories of care:
- Inpatient and outpatient professional services
- Preventive care, including medically necessary immunizations
- Inpatient hospital and skilled nursing facility care

To check specific benefits, use our online MA Patient Inquiry Tool or call the number on the back of the member ID card.

Dental Benefits

Benefits are for covered preventive services.

Services Not Covered by Premera Blue Cross Medicare Advantage Plans

Services that aren’t medically or dentally necessary generally aren’t covered. Certain services are covered only for specific diagnoses. If you’re uncertain whether a service or specific treatment is covered, or if you’d like more information, call the number listed on the back of the member ID card.

Emergency and Urgent Care Management

- **Prudent Layperson Rationale**
  Premera Blue Cross Medicare Advantage Plan applies the “prudent layperson” concept when reviewing whether the use of an urgent care facility or emergency room service was appropriate. A prudent layperson is a person without medical training who draws on his/her practical experience when making a decision regarding whether emergency medical treatment is needed. A prudent layperson
will be considered to have acted reasonably if other similarly situated laypersons would have believed, on the basis of observation of the medical symptoms at hand, that emergency medical treatment was necessary.

- **Emergency**
  Medicare defines an emergency medical condition as a medical condition brought on by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, with an average knowledge of health and medicine, could reasonably expect that not getting immediate medical attention could result in one of the following:
    1) Serious jeopardy to the health of the individual (or, in the case of a pregnant woman, the health of the woman or her unborn child)
    2) Serious impairment to bodily functions
    3) Serious dysfunction of any bodily organ or part

- **Urgent Care**
  Urgently needed services are defined as services needed immediately as a result of an unforeseen illness, injury, or condition; and it isn't reasonable given the circumstances to get the services through a PCP or other plan providers. Ordinarily, these services are provided when members are out of the service area. In extraordinary cases, these are services provided when members are in the service area, but plan providers aren't available.

  Regulatory language prohibits the denial of urgent care or emergency room services for failure to obtain an authorization. Premera Blue Cross Medicare Advantage denies payment to both plan and non-plan hospitals when emergency room treatment is delivered inappropriately. Members are notified of denials.

**Surgical Second Opinions**

If you advise surgery for a Premera Blue Cross Medicare Advantage Plan member, the member has the right to a second opinion. Refer the member to another participating specialist at the member’s request, or a third participating provider if the first and second opinions regarding surgery contradict each other.

**Coordination of Benefits**

Sometimes charges for a member’s healthcare services are the responsibility of a source other than Premera Blue Cross Medicare Advantage, for example:
- Other group health insurance
- Workers’ compensation
- Liability auto insurance
- Third-party payer
When a member is eligible for more than one health plan at the same time, the health plans coordinate their payments to avoid overpayment of claims. Premera Blue Cross Medicare Advantage collects information about other insurance coverage that members may have. If our records indicate that a member has a primary insurance other than Premera Blue Cross Medicare Advantage, we must receive a copy of the EOP from the primary carrier with your billing. Members shouldn’t receive a bill for remaining balances unless the services weren’t a covered benefit or until both the primary and secondary have processed and paid the claim.

If you’re unsure of primary coverage, call Customer Service at 888-850-8526.

Third-Party Liability

If the diagnosis or treatment on a billing suggests that a third party may be liable for the charges, we'll investigate this prior to claims payment. You’ll need to provide accident information with your billing.

Timely Claims Submission

Claims must be submitted on a timely basis. Providers are encouraged to submit all claims within 60 days. Claims for services must be submitted within 12 months of the date of service. The member can’t be billed for these services if the provider doesn’t file within Premera Blue Cross Medicare Advantage guidelines.

Care Management

A registered nurse (RN) is available to support you to identify high-risk members, address healthcare needs, and provide a plan of care for chronic, medically fragile, or high-utilizing patients. Additionally, the RN can assist members in finding emergency housing, out-of-home placements (foster home, ICF, SNF, etc.), crisis management, and access to Premera Blue Cross Medicare Advantage Plan’s specialized clinical resources, as well as community resources. Call Case and Disease Management services at 855-339-8125.

Quality Improvement Standards

CMS has developed quality improvement standards and a Five-Star Quality Rating System that measures a plan’s performance. You can read more about CMS’s quality initiatives here.

Payment and Risk Structure

Refer to your Participating Provider Agreement for details regarding payment and risk structure issues specific to the Premera Blue Cross Medicare Advantage Plans.
**Member Appeals and Grievances**

*Definitions*

**Appeal** – Any of the procedures that deal with the review of adverse organization determinations on the healthcare services the enrollee believes he or she is entitled to receive, including delay in providing, arranging for, or approving the healthcare services (such that a delay would adversely affect the health of the enrollee), or on any amounts the enrollee must pay for a service as defined in CFR 422.566(b).

**Authorized Representative** – An individual authorized by an enrollee, or under state law, to act on his or her behalf in obtaining an organization determination or in dealing with any of the levels of the appeal process, subject to the rules described in 20 CFR part 404, subpart R, unless otherwise stated in this subpart.

**Member** – a Medicare Advantage–eligible individual who has enrolled in or elected coverage through the Medicare Advantage product offered by Plan.

**Grievance** – Any complaint or dispute other than one involving an organization determination, for example, a complaint regarding the services or quality of care provided by the Plan or Plan providers.

**Expedited Review** – A request to expedite the decision as to whether requested services will be approved or continued, e.g., referrals for specialist consultation, diagnostic studies and or procedures. *The expedited process doesn’t apply to claims denials.*

**Organization Determination** – Any determination made by the Plan with respect to payment for service(s), denial of service(s), or discontinuation of service(s).

**MAXIMUS Federal Services** – An independent appeals review expert contracted by CMS to review coverage decisions made by a health plan. Its decisions are binding on the health plan.

*Coverage Issues*

It’s very important that providers know whether a service is covered by Premera Blue Cross Medicare Advantage. If a Medicare Advantage member receives services under the direction or authorization of a Premera Blue Cross Medicare Advantage Plan provider and the member hasn’t been informed in writing that he/she is liable for the cost of the services, the provider must pay for the services. Providers can’t overturn a Plan physician’s decision that a service is medically reasonable and necessary.
The only exceptions to the above instructions are:

1) The presence of written evidence that the provider advises the Premera Blue Cross Medicare Advantage member before each and every service is received that the service isn’t covered, or
2) Cases where the member should be expected to know that the services aren’t covered by Premera Blue Cross Medicare Advantage, e.g., acupuncture services and cosmetic procedures.

See CMS regulations and guidelines on organizational determinations.

Dual Eligible Members

Some members are eligible for both Medicaid and Medicare health benefits. They are referred to as “dual eligible.” A dual eligible member has Medicaid and a Medicare Advantage plan and receives benefits from both types of coverage. Doing so often relieves the member’s Medicare Part B premium. It also allows greater coordination of care. Note that a beneficiary who has End Stage Renal Disease (ESRD) may generally not enroll in a managed care health plan. A person who doesn’t have Part A and Part B of Medicare may not enroll in a Medicare Advantage plan.

Full benefit dual eligible members (aka QMB beneficiary) aren’t responsible for paying Premera Blue Cross Medicare Advantage copayments, coinsurance, or deductibles. The Washington State Medicaid program may pay providers for deductibles, coinsurance, and copayments. Medicare providers must accept Premera Blue Cross Medicare Advantage payment and Medicaid payment (if any) as payment in full for services rendered to a QMB beneficiary.

Medicare is the primary insurance. Dual members have appeal rights under both coverages.

If you have any questions about dual eligible benefits, billing, or denials, see this CMS Medicare Learning Network article, or contact Premera Medicare Advantage plan Customer Service at 888-850-8526.

Appeal

- **Standard Appeal Process** – If Premera Blue Cross Medicare Advantage denies services or payment, a Medicare Advantage member has 60 days from the date of denial to request an appeal. Premera Blue Cross Medicare Advantage has 30 days, with a possible 14-day extension (preservice), or 60 days (claims), to make a determination as to whether to pay for services or claims. Other than for prescription denials, if on appeal Premera Blue Cross Medicare Advantage upholds the original denial, the appeal is automatically sent by Premera Blue Cross Medicare Advantage to MAXIMUS for review and final decision.
• **Expedited Appeal/Determination Process** – CMS requires that Premera Blue Cross Medicare Advantage review “time-sensitive” appeals within 72 hours. A time-sensitive situation results when waiting for a decision to be made within the standard time frame could jeopardize the member’s life, health, or ability to regain maximum function. The member may request an expedited appeal verbally or in writing. Examples of service decisions that may prompt a member to request an expedited appeal are:

  o Denial of service the member thought was needed (e.g., referral to specialist)
  o Discontinuation of services such as home healthcare, discharge from a skilled nursing facility, or discharge from a hospital and the member has missed the deadline for a peer review organization review.

• **Expedited Review** – If Premera Blue Cross Medicare Advantage or a PCP decides, based on medical criteria, that the member’s situation is time-sensitive or if any physician makes the request for the member or calls or writes in support of the member’s request for an expedited review, Premera Blue Cross Medicare Advantage will issue a decision no later than 72 hours after receiving the request. If additional information is needed, Premera Blue Cross Medicare Advantage may extend the decision by 14 days if the extension benefits the member.

If Premera Blue Cross Medicare Advantage requests records from a provider, the request should be honored as quickly as possible. No extension of time will be permitted if network providers fail to submit the requested information.

If Premera Blue Cross Medicare Advantage determines that a request doesn’t meet the criteria for an expedited review, the appeal will be handled in the standard time frame of 30 days.

If the Plan upholds, on appeal, a denial for services or reimbursement, reconsideration cases must be sent to MAXIMUS for review.

• **Denial Letter Language** – CMS has developed specific language that must be used in all denials. Premera Blue Cross Medicare Advantage is required to submit model letters to CMS for approval. The language for the letters has been approved and can’t be altered without submitting changes to CMS for review and approval. **This language must be used any time a Medicare Advantage member is sent a denial letter.** See subsection 27 for a copy of the required CMS denial language.

**Grievance**

A grievance is a Medicare Advantage member’s concern relating to the quality of care or services received from a provider or Premera Blue Cross Medicare Advantage. Concerns
related to waiting times, lack of access, etc., would also be processed as a grievance. A member may file a grievance by contacting Customer Service by phone or in writing.

**Member Communications**

Providers must send any proposed correspondence (other than test results, preventive health screens, or appointment reminders) for Premera Blue Cross Medicare Advantage Plan members to Premera Blue Cross’s MA Compliance Department. Premera Blue Cross Medicare Advantage compliance staff will submit it to CMS for approval, as needed.

**Collecting Copays**

Members are instructed that the copay is due at the time of service. Members who have dual Premera Blue Cross coverage aren’t responsible for a copay/coinsurance; the secondary Premera Blue Cross policy covers the copay and coinsurance, whichever is applicable.

If a member consistently refuses to pay the copay, contact Customer Service at 888-850-8626. A provider can refuse service to a member if a sign is posted in the office that states the copay is due at the time of service.

**PCP Responsibilities**

- Educate members at the start of the PCP-member relationship on procedures to follow in using urgent and emergency care appropriately
- Respond immediately to emergency calls from members and related provider calls as medically indicated
- Inform the emergency department or urgent care center of the member’s presenting condition and whether you’ll be arriving to coordinate care immediately upon referring a member
- Ask for health plan intervention through Quality Medical Management to improve individual member compliance with emergency medical services procedures
- Encourage and assist members to make an advance directive and assure that directives are honored to within the confines of state law
Medical Plan Requirements and Coverage Changes

- Plans are required to cover dialysis treatments for members temporarily out of the plan area. Members aren’t required to obtain pre-authorization for this service.
- Members are allowed access to mammography screenings and influenza vaccines without referrals.
- Members don’t pay a copay for influenza or pneumococcal vaccines.
- Premera Blue Cross Medicare Advantage must provide, upon a member’s request, information regarding utilization controls, a summary of provider methods of compensation and Premera Blue Cross’s financial condition.
- If a Premera Blue Cross Medicare Advantage Plan member doesn’t want to see a specialist recommended by a PCP, he/she has a right to request a referral to a different participating specialist.
- Premera Blue Cross Medicare Advantage is required to provide health services in a culturally competent manner, coordinate care with community and social services, assess enrollees’ healthcare needs within 90 days of enrollment, and communicate information on follow-up care and training in self-care when necessary. Premera uses the Member Health Information Form to assess these needs, and Care Management staff arranges for services.
- Premera Blue Cross Medicare Advantage is required to provide information on the incentive arrangements affecting the Plan’s physicians to any person receiving Medicare Advantage services (i.e., a “beneficiary”) who requests the information. Premera Blue Cross Medicare Advantage must make the following pieces of information available, upon request, to current, previous, and prospective enrollees:
  - Whether Premera Blue Cross Medicare Advantage Plan’s contracts or subcontracts include physician incentive plans that affect the use of referral services
  - Information on the type of incentive arrangements used
  - Whether stop-loss protection is provided for physicians or physician groups
  - If Premera Blue Cross Medicare Advantage Plan is required by the regulation to conduct a customer satisfaction survey, a summary of survey results

For further information regarding your incentive plan, please refer to your contract addendum for the Premera Blue Cross Medicare Advantage Plan.

Expansion of Provider Protections

Premera Blue Cross Medicare Advantage must include rules of notice of participation, written notice of material changes prior to implementation, a process for appealing adverse decisions and consultation with healthcare professionals on practice guidelines. This requires a 60-day written notice of appeal for denial, suspension, or termination of a healthcare professional. Premera Blue Cross Medicare Advantage must exclude
providers who furnish services to Medicare members through private contracts. Premera Blue Cross Medicare Advantage must have prompt payment language in contracts with contracted providers.

As used in this guide, the term “provider” means all Medicare contracting healthcare delivery network members, e.g., physicians, hospitals, dentists. This goes beyond the Medicare regulatory definition for “provider.” Refer to CMS for more guidance on this subject.

Provider Marketing

CMS prohibits provider marketing of a Medicare Advantage organization without the permission of the Medicare Advantage organization for the following reasons:

- Providers are usually not fully aware of membership plan benefits and costs
- Providers may not be the best source of plan membership information
- A provider outside the role of providing medical services may confuse the beneficiary when the provider is acting as an agent of the plan
- Providers’ knowledge of their patients’ health status increases the potential for them to discriminate in favor of Medicare beneficiaries with positive health status when acting as a marketing agent. (Find more information here.) They might also discriminate in favor of beneficiaries with negative health status as a way to reduce beneficiaries’ out-of-pocket costs and/or increase benefits.

Read more about CMS guidelines for marketing in the healthcare setting.

Information Required for Filing Claims

To ensure timely claims processing, all claims must be submitted on a CMS 1500 form (formerly a HCFA 1500 form); or, for facilities, on a UB-04 form, or, for dentists, an ADA form. Information on the claim form must be printed in black ink with a standard 10- or 12-point type face. Place required information in the appropriate field and align the form so that each item is properly located within the box.

The list below includes general categories of information necessary for claims processing. If any of this information is missing from your claim, it could be delayed or returned to you.

- Patient’s full name and date of birth
- Patient’s Premera Blue Cross Medicare Advantage member ID number (including the prefix)
- Subscriber’s full name and relationship to patient
- Group number or name
• Information about other insurance coverage
• ICD-10 CM codes (code to the highest level of specificity)
• Description of any accident circumstances
• CPT, HCPCS, or CDT codes for services performed (use current year codes)
• Place of service codes per CMS guidelines
• Itemized charges, by date of service (only one service per line)
• Provider’s name, National Provider Identifier (NPI) number, tax ID number, and remittance address (Box 33)
• Name and address of facility where services where rendered (Box 32 on CMS 1500 form)

Fraud, Waste, and Abuse

It’s the policy of Premera to prevent, proactively detect, and investigate health care fraud, waste and abuse (FWA) in the Medicare Advantage program. Premera expects employees, FDRs, Non-employees, and MA beneficiaries to report suspected noncompliance or possible FWA and has created multiple confidential methodologies to do so.

Reports of suspected FWA may be made to the Special Investigations Unit (SIU) by calling the Anti-Fraud Hotline at 1-888-844-8985; sending an email to SIUReferrals@premera.com; or via letter at Premera Blue Cross, SIU Medicare Advantage, 7001 220th St. SW, MS 219, Mountlake Terrace, WA 98043. If you choose to remain anonymous, you may do so by calling the hotline and following the prompts. Please provide as much detailed information as possible so that the SIU can follow up on your concerns. Any potential FWA issues are investigated by the SIU department.

In accordance with Premera’s Compliance & Ethics Hotline Corporate Policy, any retribution, retaliation, intimidation, or harassment of an employee reporting concerns in good faith, or for participating in or cooperating with an investigation is prohibited. Corrective action up to and including termination of employment may occur for anyone that retaliates, intimidates, harasses, or seeks retribution against another employee. FDRs are expected to maintain similar requirements for their employees. Additionally, accusations which are intentionally false or reckless are not tolerated and will result in corrective action.

Examples of FWA include, but are not limited to:
• Billing for services not provided;
• Upcoding of CPT and DRG codes to obtain a higher rate of reimbursement;
• Unbundling CPT codes to obtain a higher rate of reimbursement;
• Intentionally using an incorrect or inappropriate provider number to be paid;
• Signing blank records or certification forms that are used by another entity to obtain payment;
• Misrepresenting non-covered services as medically necessary, by using inappropriate procedure or diagnosis codes;
• Providing false employer group and/or group membership information;
• Obtaining benefits or services using someone else’s identity;
• Obtaining services under false pretenses (such as lying about a condition or injury in order to obtain a prescription);
• Using a more expensive technique to provide treatment when an acceptable alternative method is readily available at a reduced cost;
• Purchasing enrollee lists for the purpose of submitting fraudulent claims;
• Retaining duplicate payments for services;
• Balance billing;
• Waiving member cost share;
• Billing for services grossly in excess of those needed by patients.

Guidelines for Bundling Admissions

<table>
<thead>
<tr>
<th>Description of Discharge</th>
<th>Billing</th>
<th>Premera Blue Cross Medicare Advantage Financial Recovery</th>
<th>Provider Appeal Rights</th>
<th>Additional Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Member leaves against medical advice and requires subsequent readmission</td>
<td>Bill the admissions separately.</td>
<td>None</td>
<td>Cannot be appealed</td>
<td>Any discharge of a member against medical advice is considered a regular discharge and the admissions will not be bundled. The hospital record should show that the member signed out against medical advice. Examples include: • Physician writes &quot;discharged AMA&quot; in physician orders. • Member signs AMA form when leaving facility. • Progress notes (by either a physician or a nurse) include written notation indicating that the member left AMA.</td>
</tr>
<tr>
<td>Member requests discharge because of uncertainty about undergoing further treatment or for other personal reasons</td>
<td>Bill the admissions separately if the hospital record shows the member initiated the interruption.</td>
<td>None</td>
<td>Cannot be appealed</td>
<td>The readmission is considered separate if the member needs to return home or requests time to make a major healthcare decision.</td>
</tr>
<tr>
<td>Member is discharged to allow resolution of a medical problem that, unless resolved, is a contraindication to the medically necessary care that will be provided during the second admission</td>
<td>Bill the admissions separately.</td>
<td>None</td>
<td>Cannot be appealed</td>
<td>The hospital record must clearly show why the interruption was medically necessary. Example: The member is discharged to await normalization of clotting times prior to a surgical intervention.</td>
</tr>
</tbody>
</table>
Medical Management

Premera Medicare Advantage Medical Management program promotes the provision of cost-effective, medically appropriate services. This comprehensive approach employs key interactive medical management activities so that Premera Blue Cross can achieve its goals for Premera Medicare Advantage members.

Medical Management Services Include:

- **Utilization Management**
  - Clinical review of select services and maintenance of medical review criteria
  - Provider Appeal Process
- **Care Management**
  - Care coordination activities
  - Discharge planning
  - Case management activities
  - Chronic condition management programs
  - Health risk assessments
