

# On the mend with outpatient rehab

---

## Outpatient rehabilitation, or rehab, benefits are part of every Premera plan.

They include therapy you get outside of a hospital admission:

- Massage therapy
- Physical therapy
- Occupational therapy

## Ensuring your best care

Premera reviews treatment plans for outpatient rehab that are developed by therapists to make sure you're getting care that's both effective and medically necessary. We want you to:

- Get the right care for your condition.
- Avoid paying for services that don't help you recover.
- Have benefits available when you need them.

## What to expect

When your doctor refers you for outpatient rehab:

1. Your therapist assesses your condition and treats you at your first visit. The first 6 visits you need to treat your condition must be medically necessary, but do not need review by eviCore - Premera's medical review partner.
2. If additional visits are needed beyond the initial 6 to treat the same condition, your therapist tells eviCore about your condition, gets authorization for additional visits, and creates a treatment plan
3. eviCore's medical professionals review the plan using medical best practices and clinical guidelines to determine the medical necessity of additional treatment and the best duration of care.
4. Once your treatment plan is approved, you can proceed with your next visit.

## Denied? Don't despair.

If your treatment plan is denied:

- Your therapist can revise and resubmit the plan.
- Your therapist can review the plan with an eviCore therapist or medical director.
- You may appeal the decision.
