Creating an Adobe ID

Already have an Adobe account?

You will need an Adobe ID to access the course and attestation. Adobe IDs are universal across all Adobe products so if you have one already created you can use it in this instance as well.

**Unsure if you have an ID or don't recall your password?**

You can always check to see if you have an existing Adobe ID by either signing in with your current email address or by using the **Forgot Password** option. If you have an existing ID instructions on how to access your account and reset your password will be sent to you.
