Willamette Dental

PRESENTED BY PREMIERA

For employers with 51+ employees*.

*Some restrictions apply. Please consult your Premiera representative or producer for details.

Why Willamette Dental, presented by Premera?

Healthcare works better when you offer your employees both dental and medical benefits from Premera. Plus, you both benefit from an easy, streamlined experience.

Pair a Willamette Dental plan with one of our Premera dental plans —and let your employees select the option that works best for them.

EMPLOYEES GET THE FOLLOWING FEATURES:

Predictable out-of-pocket costs

Our Willamette Dental plans offer your employees a predictable list of covered dental services and their copayments, including for orthodontic care.*

Dental coverage when needed, as often as needed

Members will never exhaust their dental coverage and will never need to satisfy a deductible before they can receive benefits. Each of our Willamette Dental plans feature three key components:

- No deductible
- No annual maximum
- No waiting periods

Proactive dental care

Willamette Dental Group dentists work with every member to develop a personalized dental care plan. This promotes long-term dental health, rather than just addressing what is currently bothering the member.

Plus, orthodontic coverage is included for children and adults!

Members have access to affordable orthodontic care at any age with predictable costs and no waiting periods or lifetime limits.

EMPLOYERS GET THE FOLLOWING OUTCOMES:

Healthier, happier employees

Oral health is the key to overall health. When your employees get the care they need for healthy smiles, they'll be better prepared to meet the needs of your business.

Administrative ease

Simplify your work by dealing with one health plan for dental and medical administration and billing.

The power of choice

Talk to your Premera representative or producer to determine which plans have the programs and services to best meet your needs.

* Members are responsible for the general or orthodontics office visit copay. They must also pay any required additional copays at each visit for covered services such as fillings and porcelain-metal crowns received during the visit.

Willamette Dental Plans

At Premera, the customer is at the center of all we do—that’s why we offer plans that help you diversify your benefit offerings all while giving your employees access to affordable, quality care.
