

Be an informed shopper

Compare medical prices

When you research a service or procedure, you'll get a list of in-network providers in your area. You'll also see the estimated costs you can expect to pay for each provider based on your plan's coverage and the amount remaining to meet your deductible.

As a Premera Blue Cross member, you have access to the Find a Doctor research tool. **Find a Doctor** helps you take control of your healthcare costs and well-being in general. The cost for the same healthcare service can vary greatly between providers, so it's important to use the **Estimate Treatment Costs** feature to easily and quickly compare the prices of medical services from providers in your plan's network.

To start estimating your treatment costs:

- Sign in to your member account at premera.com so you'll get tailor-made cost estimates based on your plan's current bills and deductibles.
- Go to **Find Care > Find a Doctor** to get all doctors, providers, and hospitals near you.
- Click the blue **search your network** button.
- Select current location or enter your city, state, or zip code.
- Search by name, specialty, or procedure, or simply select one of the Browse by Category tiles.
