Monthly rates for individuals and families

Start date: Jan. 1, 2024

Area 3

These rates apply if you live in a ZIP code that begins with 998 or 999.

Rates will be adjusted if you apply through the exchange and are eligible for a subsidy.

Determine your monthly rate

Step 1: Choose a plan and a deductible amount from the chart. The chart shows the deductible for an individual. The deductible for a family is 2 times the individual deductible. A deductible is the amount you pay each year before the health plan starts to pay for certain services. Copayments do not count toward meeting your deductible.

Step 2: Find your age and circle the rate that applies to your use or non-use of tobacco.

Tobacco use means use of any tobacco product on average 4 or more times per week within the past 6 months. Tobacco use does not include religious or ceremonial use. E-cigarettes are not considered tobacco.

Step 3: Repeat step 2 for each eligible family member you wish to add to your health care plan. Eligible family members include you, your spouse or domestic partner, and your legal dependents and children under age 26. Monthly rates are charged for all dependents and children age 21 and older and for the first 3 oldest dependents and children under age 21. Additional dependents and children age 20 and younger are not charged.

Step 4: Add up the circled amounts. The total will be the dollar amount of your monthly health plan bill.

We want to make it simple and easy for you to understand your health plan.

Important notes

- Individual health plans are available to permanent Alaska residents who are not enrolled in Medicare Part A or Part B.
- Rates are based on your current age. When your age changes during the year, your rate will not change until the next time you enroll in a health plan.
- The deductible amount listed for each rate category is the individual deductible. The family deductible is 2 times the individual deductible.
