What is the list of covered drugs (Formulary Drug List)?

This document contains a list of generic, brand and specialty drugs covered under your plan.

How is the list of covered drugs developed?

The formulary drug list is developed with an independent committee of physicians, pharmacists, and other healthcare providers called the Pharmacy and Therapeutics Committee. This independent committee reviews and selects drugs for coverage based on each drug's safety, effectiveness, and cost.

The committee meets at least quarterly to review new drugs to market to determine placement on this list and reviews updated safety, effectiveness, and cost information for existing drugs to ensure the drug list remains up to date with current medical evidence.

How do I use the Formulary Drug List?

Drugs are listed by categories depending on the type of medical conditions that they are used to treat. If you know what your drug is used for, look for the category name in the list that begins below. Then look under the category name for your drug.

If you are not sure what category to look under, you can also search for the drug in the index. The index provides an alphabetical list of all the drugs included in this document. Next to the name of the drug in the index, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

How does the Formulary Drug List help me understand my drug coverage?

Drug coverage is based on your coverage contract. Coverage for a specific drug is subject to the rules outlined in your member booklet. This document will tell you if a drug is included on the drug list attached to your plan.

Will the Formulary Drug List change?

The formulary drug list is updated throughout the year. If you are taking a drug and it will be removed from the drug list or moved to a higher cost sharing tier, we will notify you of this change via letter. We also post information on upcoming drug list changes on our website on the "Drug list Changes" page.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These can be seen in the column next to the drug name on the list. These requirements and limits may include:

- **Age Limits:** some drugs have age limits due to Food and Drug Administration (FDA) approved indications. For example, Drug A is limited to ages 2 through 5 years of age
- **Prior Authorization:** some drugs require prior approval before they are covered.
- **Quantity Limits:** for some drugs, we limit the amount of the drug that we will cover. For example, we will cover 18 per 30-day supply of zolmitriptan oral tablets.
- **Step Therapy:** for some drugs we require that you first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, then we will then cover Drug B.

Drugs subject to these restrictions will generally mean that your physician or healthcare provider may need to provide additional information on your medical condition before the drug will be covered at the pharmacy. Information on this process is on our website on the “Drugs Requiring Approval” page.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., JANUVIA) and generic drugs are listed in lower-case italics (e.g., *metformin oral tablet*).

The information in the Requirements/Limits column tells you if we have any special requirements for coverage of your drug.

The amount you pay for a covered drug will depend on if you have met any applicable deductible for the plan year, if you have met any applicable maximum out of pocket for the plan and what tier the medication is on.

More information on applicable deductibles and maximum out of pockets can be found in your member booklet.

Metallic (M4) Formulary Drug List

Drug Tier	Includes
Preferred Generic (1)	Tier 1 is the lowest tier and includes preferred generic drugs.
Preferred Brand (2)	Tier 2 includes preferred brand drugs.
Non-preferred Drug (3)	Tier 3 includes non-preferred generic and brand drugs.
Specialty Drug (4)	Tier 4 includes specialty drugs. Specialty drugs are generally biologics and other targeted drugs usually used for complex medical conditions and often requiring special handling.
MB (Medical Benefit)	The MB tier includes medical benefit drugs normally administered in a clinic, infusion center or provided by a home infusion service. These drugs and their services are covered under the medical benefit, not under the pharmacy benefit. This drug may require prior authorization, please see the “Drugs Requiring Approval” page on our website for more information.

COVERAGE AND ABBREVIATIONS

ABBREVIATION	DESCRIPTION	EXPLANATION
UTILIZATION MANAGEMENT RESTRICTIONS		
AGE	Age Limit Restriction	We limit the use of a drug to certain ages. The prescription is covered if your age is within the specific age range.

PA	Prior Authorization Restriction	You (or your physician) are required to get prior authorization from us before you fill your prescription for this drug. Without prior approval, we may not cover the drug.
QL	Quantity Limit Restriction	We limit the amount of this drug that is covered per prescription, or within a specific time frame.
ST	Step Therapy Restriction	Before we provide coverage for this drug you must first try another drug to treat your medical condition. This drug may only be covered if the other drug does not work for you.
OTHER SPECIAL REQUIREMENTS FOR COVERAGE		
OCh	Oral Chemo	Oral Chemotherapy Drug. Certain oral chemotherapy drugs may be covered under your medical plan. Please check your member booklet for more details.
LA	Limited Access Drug	Limited Distribution drugs are drugs where the FDA has restricted distribution or are drugs that require special handling, provider coordination, or patient education that cannot be met by a network retail pharmacy. Your benefit may require that you fill these drugs at an in-network specialty pharmacy. Please see your benefit booklet with more details.

ACA PV	Affordable Care Act (ACA) Preventive Medication	<p>The Affordable Care Act (ACA) makes certain preventive medications available to you at no cost when you meet the requirements of the U.S. Preventive Services Task Force (USPSTF) recommendation grade of “A” or “B.”</p> <p><i>The coverage in full for some drugs is limited to the following:</i></p> <ul style="list-style-type: none"> • <i>Bowel prep (example: peg 3350-electrolytes oral recon soln): Covered for persons between 45 and 75 years old.
