

Summit (S1/S6) Formulary Drug List Effective 01-01-2027

This document lists the generic, brand, and specialty drugs covered under your plan. It also shows whether your health plan applies any restrictions on those drugs, such as requiring our authorization before they're prescribed.

Drugs on your formulary are placed into tiers. Each tier shows how your medication is covered under your plan.

Please see the chart on page 2 for information about each tier.

If you're unsure what plan you're on, look for your Rx Formulary on the front of your Premera member ID card. Or call customer service at the number on the back of your card, Monday through Friday, 5 a.m. to 8 p.m. Pacific Time.

How do I find a drug on the Formulary Drug List?

Drugs are listed by categories depending on the type of medical conditions they treat. If you know what your drug is used for, look for the category name in the list below. Then look under the category name for your drug.

If you're not sure what category to look under, you can also search for the drug in the index. The index provides an alphabetical listing of all the drugs included in this document. Next to the name of the drug in the index, you will see the page number where you can find coverage information. Go to the page listed in the index and find the name of your drug in the first column of the list.

How do I use the Summit (S1/S6) Formulary Drug List?

Drug Name column

The first column of the chart lists the drug name. Generic drugs are in lower-case italics (such as *metformin oral tablet*). Brand-name drugs are capitalized (like JANUVIA).

Drug Tier column

Each drug on the formulary is placed into a tier. Each tier shows how your medicine is covered.

Summit (S1) Drug List

Drug Tier	Includes
Formulary Drugs (1, 2, 3, 4, 5, 6)	Formulary Drugs include Preferred Generic, Preferred Brand, Non-Preferred and Specialty Drugs. Medical plan cost shares apply to formulary drugs. Once you have satisfied your medical deductible you will pay your applicable coinsurance until you reach your out-of-pocket maximum limit.

Summit (S6) Drug List

Drug Tier	Includes
Value generic drugs (1)	Value generic drugs provide the best value as they are effective, safe, and the lowest out of pocket cost compared to other options.
Preferred generic drugs (2)	Generic drugs are effective, safe and high-quality options and less expensive than their brand-name counterparts.
Preferred brand-name drugs (3)	Considered "preferred" because of their value and effectiveness.
Non-preferred generic or brand drugs (4)	Non-preferred drugs can be generic, brand, or specialty drugs. These drugs cost more and may not work as well as other options in Tier 1, 2 or Tier 3.
Preferred specialty drugs (5)	Preferred specialty drugs are drugs typically used to treat chronic, complex, or rare conditions and may require enhanced clinical support. Specialty Drugs are generally limited to a one month supply on dispense. Please check your member booklet for more details.
Non-preferred specialty drugs (6)	These drugs provide a lower value than other options in tier 5 because they may cost more or may not work as well.

The amount you pay for a covered drug will depend on if you have met applicable deductible for the plan year, if you have met any applicable out-of-pocket maximum for the plan year, and what tier the medication is on.

More information on your deductible and maximum out-of-pocket limit can be found by signing in to your account on premera.com.

Requirements/ Limits column

The information in the Requirements/ Limits column tells you if there are any special requirements or limits for coverage of your drug. See the Abbreviations and Explanation of Coverage chart below.

Drugs subject to these restrictions will generally mean that your doctor or healthcare provider needs to request approval and provide additional information on your medical condition before the drug will be covered. Information on this process is on premera.com on the Drugs Requiring Approval page.

Abbreviations and Explanation of Coverage

Abbreviation	Requirements or Limits for coverage	Explanation
ACA	Affordable Care Act (ACA) Preventive Medication	ACA preventive drugs are prescription and over-the-counter medications that the Affordable Care Act (ACA) requires to be covered at 100% with \$0 cost-sharing (no deductible or copay). These drugs are intended to prevent disease or health conditions in individuals with specific risk factors, based on recommendations from the U.S. Preventive Services Task Force (USPSTF) recommendation of grade "A" or "B." The USPSTF recommendations are sometimes age-specific or for a limited quantity.
AGE	Age Limit Restriction	We limit the use of a drug to certain ages. The prescription is covered if your age is within the specific age range.
LA	Limited Access	Limited access drugs are drugs where the FDA has either restricted distribution or if they require special handling, provider coordination, or patient education that cannot be met by a retail pharmacy. Your benefit may require that you fill these drugs at an in-network specialty pharmacy.
PA	Prior Authorization	Your doctor must submit a prior authorization to Premera before you can fill a prescription for this drug. Without prior authorization, this drug may not be covered.
OCh	Oral Chemotherapy	Certain oral chemotherapy drugs may be covered under your medical plan.
QL	Quantity Limit	Some drugs have a cap on the amount (number of pills, bottles, or patches) covered within a specific period. For example, Premera will cover 18 tablets per 30-day supply. These guidelines are for safety reasons (preventing overuse or misuse), reducing waste, and controlling high costs, based on FDA guidelines.
ST	Step Therapy	These drugs require that you first try a preferred (or covered) drug on the drug list to treat your medical condition. The step therapy drug is considered non-preferred and may only be covered if the preferred drug doesn't work for you. Your provider must submit a prior authorization for the non-preferred drug before the prescription can be filled.
