

2026 High-Cost, Low Value Drug List

Effective July 1, 2026

Certain drugs are not covered under your specific plan if a lower cost generic or therapeutic equivalent is available. This is true even if the prescribed medication is listed as covered on your plan's list of covered drugs, sometimes referred to as a "formulary". Please contact customer service for more information.

All drugs on this list have a therapeutic alternative. Talk with your doctor about what is right for you. In some cases, a non-prescription, over the counter (OTC) form of the drug may be a good choice. Please note that OTC drugs are not covered.

This list is subject to change.
