

Using your preventive benefits

YOUR PREMIERA BLUE CROSS HMO PLAN PAYS IN-NETWORK PREVENTIVE SERVICES IN FULL

This document is a summary of preventive benefits covered by your health plan, and not a guarantee of benefits or coverage. Consult your benefit booklet for confirmation of benefits and coverage. Sign in to hmo.premiera.com/member and go to the **Benefit Details** page, or call customer service at the number on the back of your member ID card.

Get no-cost preventive services by choosing a provider in your plan's network. Getting timely preventive care is one way to detect potential health issues before they become serious.

Take advantage with these simple steps:

- 1 Schedule your annual exam and vaccinations with your provider right away.
- 2 When you make your appointment, be sure to tell the scheduler you want a preventive exam.
- 3 Talk with your provider about preventive services that are right for you.

Keep in mind

Your provider may find a problem during your visit that needs more screening or tests to pinpoint an issue. They may also run further tests if you manage an ongoing health issue. Screenings and tests used to diagnose or monitor a condition are not preventive services and are subject to your annual plan deductible and coinsurance. Recommended age and frequency of preventive services vary.

These services are based on guidelines required by state or federal law. The guidelines do change occasionally and come from:

- Services given an A or B grade recommendation by the U.S. Preventive Services Task Force
- Vaccinations recommended by the Centers for Disease Control and Prevention (check their website for immunization schedules)
- Screenings and other care for women, babies, children, and teens recommended by the Health Resources and Services Administration
- Services that meet Washington state legal requirements

See our Preventive Care Benefit Coverage Guideline for specific information at

premera.com/hmo/medicalpolicies/10.01.523.pdf.

SERVICES, SCREENINGS, AND TESTS

Service	Additional details	Preventive coverage by age
Wellness exams	Visits for routine wellness or physical exams	All individuals regardless of age
Abdominal aortic aneurysm	One-time screening	Men ages 65 to 74 who have ever smoked
Alcoholism screening and counseling		Adults 18 and older
Alcohol and drug use screening		Children under 18
Anemia screening		Children under 18
Autism screening		Children under 18
Behavioral issues		Children under 18
Bilirubin screening		Newborns through the 28th day
Birth control, contraception, and family planning	Visits for birth control devices and family planning; generic, single-source brand, and multi-source brand oral contraceptives (including emergency contraception), cervical caps, patches, diaphragms, insertion or removal of IUD (intrauterine device), contraceptive implants, and injectable contraception. Requires a written prescription. Over-the-counter birth control (for example: condoms and sponges) does not require a written prescription. Certain birth control mobile apps are also covered. See benefit booklet for additional coverage detail.	All individuals regardless of age
Blood pressure screening		All individuals regardless of age
BMI (body mass index)	Height, weight, and body mass measurements	Children under 18
Bone density (osteoporosis) screening		Women 18 and older
Breast and ovarian cancer (BRCA) genetic counseling and testing	Prior authorization for testing required; please contact customer service	Women 18 and older
Breast cancer (chemoprevention) counseling		Women 18 and older at higher risk
Breast cancer screening	Screening mammography	Adults 40 and older; sooner for those at higher risk
	Additional imaging such as MRI, ultrasound, or three-dimensional (3D) imaging	
	Pathology evaluation (biopsies and consultations)	
	Patient navigation services¹	
Cervical cancer screening	Screening and patient navigation services ¹	Women ages 21 to 65: cytology (Pap test) every 3 years; ages 30 to 65: screening for human papillomavirus (HPV) every 5 years or combined HPV and cytology test every 5 years
Cervical dysplasia screening		Sexually active females under 18
Chlamydia infection screening		Women regardless of age and at higher risk; men regardless of age when taking PreP for HIV prevention
Cholesterol test		Adults of specific ages or those at higher risk

¹Patient navigation services are designed to make healthcare easier to access for people with complex conditions like cancer, both in person and virtually. These services include but are not limited to person-centered assessment and planning; healthcare access and health system navigation; referrals to support services (such as language translation, transportation, and social services); and patient education.

SERVICES, SCREENINGS, AND TESTS (continued)

Service	Additional details	Preventive coverage by age
