Introduction

When doctors, dentists, nurses, pharmacists, mental health therapists, or other healthcare professionals perform a service, write a prescription, or order a device, their offices bill the insurance company with a specific code for this service. There are thousands of codes that precisely define nearly every type of medical, dental, mental health, medication, or other health-related service possible. These codes are created by expert medical groups and are frequently updated. Not all services are covered, even though there is a code. The plan covers services that are medically necessary to prevent, evaluate, diagnose, or treat an illness, injury, disease, or its symptoms and meet accepted standards of medicine. Not all services and their specific codes meet this definition. This guideline lists types of services and codes the plan does not cover.

Note: The Introduction section is for your general knowledge and is not to be taken as policy coverage criteria. The rest of the policy uses specific words and concepts familiar to medical professionals. It is intended for providers. A provider can be a person, such as a doctor, nurse, psychologist, or dentist. A provider also can be a place where medical care is given, like a hospital, clinic, or lab. This policy informs them about when a service may be covered.

Policy Coverage Criteria

If there is a difference between the information listed in the table below and the member's contract, the member's contract prevails. Coverage is dependent upon the effective date of the member's contract and the date the service was provided.

Non-covered services include but are not limited to the categories below:

Category	Coverage Criteria
Benefit exclusion	Services or supplies that the plan does not cover.
Cosmetic	<p>A service that alters the appearance or shape of a body part. Cosmetic services do not relieve pain or improve, correct, or restore physical function and are therefore not covered.</p> <p>Exceptions: cosmetic services that are considered reconstructive may be allowed for specific procedures when medical necessity criteria are met.</p> <p>Direct or indirect complications and aftereffects from non-covered cosmetic services are not covered.</p>
Counseling, education, or training services not covered under another benefit	Counseling, education, or training that is not covered under another benefit in the treatment of a covered medical or behavioral health disorder is not covered.
Custodial care	<p>Care that does not require the regular services of a trained medical or allied health care professional is not covered.</p> <p>Note: Custodial care primarily assists in the activities of daily living, such as getting in and out of bed, bathing, dressing, help with walking, etc.</p>
Nonmedical equipment (DME or HME)	<p>Durable medical equipment (DME) or home medical equipment (HME) is prescribed by a physician for therapeutic use in direct treatment of a covered illness or injury, and can withstand repeated use, and is not useful in the absence of illness or injury.</p> <p>Equipment that does not meet this definition is not considered medical equipment and therefore is not covered.</p> <p>Note: Criteria for reflux wedge pillows used for infants with GERD is addressed in a Related Policy (HCPCS E0190)</p>

Category	Coverage Criteria
Nonmedical services	Nonmedical services are not covered. These services include but are not limited to: <ul style="list-style-type: none"> • Spiritual, bereavement, legal, financial, or other counseling services • Living expenses • Nonemergency transportation • Meals • Assisted living
Nonprescription (Non-legend, aka over-the-counter) drugs, supplements, or supplies	Drugs, nutritional supplements, supplies, or other products that can be purchased without a prescription are not covered.
Personal care/convenience	Items that do not provide a medical benefit are not covered. Note: These items are used for the comfort and/or convenience of the patient or the patient's family.
