Introduction

Carelon Medical Benefits Management conducts prior authorization reviews for outpatient radiation oncology services. Prior authorization is based on member benefits and eligibility at the time of service. Below is the link to Carelon's Clinical Appropriateness Guidelines for Radiation Oncology. To submit a request for services, providers need to use the Carelon provider portal, which is also provided below.

Note: The Introduction section is for your general knowledge and is not to be taken as policy coverage criteria. The rest of the policy uses specific words and concepts familiar to medical professionals. It is intended for providers. A provider can be a person, such as a doctor, nurse, psychologist, or dentist. A provider also can be a place where medical care is given, like a hospital, clinic, or lab. This policy informs them about when a service may be covered.
