### Introduction

When imaging is needed to diagnose certain dental/medical problems related to the face, neck, or teeth standard dental x-rays are usually enough. In some cases, other imaging such as MRI or ultrasound, are needed. This policy explains when imaging besides standard dental x-rays may be medically or dentally necessary.

**Note:** The Introduction section is for your general knowledge and is not to be taken as policy coverage criteria. The rest of the policy uses specific words and concepts familiar to medical professionals. It is intended for providers. A provider can be a person, such as a doctor, nurse, psychologist, or dentist. A provider also can be a place where medical care is given, like a hospital, clinic, or lab. This policy informs them about when a service may be covered.

### Policy Coverage Criteria

Procedure	Dental / Medical Necessity
<b>Computerized diagnostic imaging such as:</b> <ul style="list-style-type: none"> <li>• 2D/3D photographs</li> <li>• Cone beam computerized</li> </ul>	<b>These services are considered not dentally/medically necessary for the following purposes:</b> <ul style="list-style-type: none"> <li>• Screening: Pre-treatment screening for routine dental procedures, including orthodontia and periodontal surgery</li> </ul>

Procedure	Dental / Medical Necessity
<b>tomography (CBCT)</b> <ul style="list-style-type: none"> <li>• <b>Maxillofacial magnetic resonance imaging (MRI)</b></li> <li>• <b>Maxillofacial ultrasound</b></li> <li>• <b>Sialoendoscopy</b></li> </ul>	<ul style="list-style-type: none"> <li>• A substitute for traditional diagnostic dental x-rays</li> <li>• Recall and/or periodic examinations and x-rays</li> </ul>
<b>Computerized diagnostic imaging such as:</b> <ul style="list-style-type: none"> <li>• <b>2D/3D photographs</b></li> <li>• <b>Cone beam computerized tomography (CBCT)</b></li> <li>• <b>Maxillofacial magnetic resonance imaging (MRI)</b></li> <li>• <b>Maxillofacial ultrasound</b></li> <li>• <b>Sialoendoscopy</b></li> </ul>	<p><b>These services may be considered dentally/medically necessary for the following purposes:</b></p> <ul style="list-style-type: none"> <li>• Planned therapy <ul style="list-style-type: none"> <li>○ Implants</li> <li>○ Complex third molar extractions</li> <li>○ Implant or third molar extraction has near proximity to nerve, sinus – vital oral structures</li> <li>○ Implant or third molar extraction has significant risk of complications due to vicinity of the proximity of vital structures</li> <li>○ Clinical study prior to consideration of temporomandibular joint dysfunction (TMJ) surgical treatment or orthognathic surgical procedures</li> </ul> </li> <li>• Diagnostic purposes <ul style="list-style-type: none"> <li>○ Suspicion of head and neck neoplasms</li> <li>○ Head and neck trauma</li> </ul> </li> <li>• Post-treatment care <ul style="list-style-type: none"> <li>○ Consideration of retreatment of endodontic procedures</li> <li>○ Consideration of retreatment of implant placement</li> </ul> </li> </ul>

**Documentation Requirements**  
**Submit diagnosis or narrative of condition (pathology or operative report if applicable).**

**Coding**

Code	Description
<b>CDT</b>	
D0350	2D oral/facial photographic image obtained intra-orally or extra-orally

Code	Description
D0351	3D photographic image
D0364	Cone beam CT capture and interpretation with limited field of view – less than one whole jaw
D0365	Cone beam CT capture and interpretation with field of view of one full dental arch – mandible
D0366	Cone beam CT capture and interpretation with field of view of one full dental arch – maxilla, with or without cranium
D0367	Cone beam CT capture and interpretation with field of view of one full dental arch – maxilla, with or without cranium
D0368	Cone beam CT capture and interpretation for TMJ series including two or more exposures
D0369	Maxillofacial MRI capture and interpretation
D0370	Maxillofacial ultrasound capture and interpretation
D0371	Sialoendoscopy capture and interpretation
D0380	Cone beam CT image capture with limited field of view –less than one whole jaw
D0381	Cone beam CT image capture with field of view of one full dental arch – mandible
D0382	Cone beam CT image capture with field of view of one full dental arch – maxilla, with or without cranium
D0383	Cone beam CT image capture with field of view of both jaws, with or without cranium
D0384	Cone beam CT image capture for TMJ series including two or more exposures
D0385	Caxillofacial MRI image capture
D0386	Caxillofacial ultrasound image capture
D0391	Interpretation of diagnostic image by a practitioner not associated with capture of the image, including report
D0393	Treatment simulation using 3D image volume
D0394	Digital subtraction of two or more images or image volumes of the same modality
D0395	Fusion of two or more 3D image volumes of one or more modalities
<b>CPT</b>	
70010	Myelography, posterior foss, radiological supervision and interpretation
70015	Cisternography, positive contract, radiological supervision and interpretation

Code	Description
70100	Radiologic examination, mandible; partial, less than 4 views
70110	Radiologic examination, mandible; complete, minimum 4 views
70120	Radiologic examination, mastoids; less than 3 views per side
70130	Radiologic examination, mastoids; complete, minimum of 3 views per side
70140	Radiologic examination, facial bones; less than 3 views
70150	Radiologic examination, facial bones; complete, minimum of 3 views
70240	Radiologic Examination, sella turcica
70250	Radiologic examination, skull; less than 4 views
70260	Complete, minimum of 4 views
70300	Radiologic examination, teeth; single view
70310	Partial examination, less than full mouth
70320	Complete, full mouth
70328	Radiologic examination, Temporomandibular joint, open and closed mouth; unilateral
70330	Bilateral
70332	Temporomandibular joint arthrography, radiological supervision and interpretation
70336	Magnetic resonance (eg, proton) imaging, Temporomandibular joint(s)
70350	Cephalogram, orthodontic
70355	Orthopantomogram (eg, panoramix x-ray)
70380	Radiologic examination, salivary gland for calculus
70390	Sialography, radiological supervision and interpretation
70557	Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); without contrast material
70558	Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); with contrast material(s)
70559	Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); without contrast material(s), followed by contrast material(s) and further sequences

Code	Description
76380	Computed tomography, limited or localized follow-up study

## Evidence Review

Cone Beam Computed Tomography (CBCT) scan is a diagnostic imaging method in which a computer is used to generate a three-dimensional image of an object using a series of two-dimensional X-ray image slices taken around a single axis of rotation. Cone beam refers to the type of X-Ray projection which allows users to image a small, well-defined volume such as the lower face and mouth at a low radiation dosage.

Cone Beam Computed Tomography (CBCT) scan may be indicated when:

- Implant or third molar extraction has near proximity to nerve, sinus – vital oral structures
- Implant or third molar extraction has significant risk of complications due to vicinity of the proximity of vital structures.
- Post-endodontic care complications
- Treatment planning with head/neck trauma situations
- Complex orthognathic surgical cases

This dental policy has been developed through consideration of generally accepted standards of dental practice, review of dental literature, dental necessity, and as appropriate, government approval.

Drage et al, in Three-Dimensional Imaging for Orthodontics and Maxillofacial Surgery offer that:

One of the major advantages of CBCT over conventional CT is the reduced radiation dose. However, compared with a conventional lateral cephalogram, a panoramic radiograph, and any supplemental films that are required, the radiation dose of CBCT's is still relatively high. A recent report<sup>3</sup> stated that CPCT imaging normally used the comprehensive orthodontic patients was about 65 mSv, compared with about 26 mSv for a lateral cephalogram and a panoramic image taken on their digital machine.<sup>2</sup>

It has been reported that significant differences in dose exist for different CBCT machines, and also there are differences in dose for different examinations or techniques with the same unit.

The American Association of Orthodontists made a recommendation in 2010, stating: "the AAO recognizes that while there may be clinical situations where a CBCT radiography may be of value, the use of such technology is not routinely required for orthodontic radiography." Further, The British Orthodontic Society guidelines give a similar recommendation: "routine use of CBCT even for most cases of impaction of teeth....cannot be recommended."

## History

Date	Comments
11/10/14	New coverage guideline; add to Dental section. Computerized diagnostic imaging may be considered medically necessary when criteria are met.
07/14/15	Annual Review. Guidelines reviewed with no change to policy content.
10/13/15	Interim update. Policy statement clarified to indicate "dentally/medically necessary"

Date	Comments
	and "not dentally/medically necessary."
06/24/16	Coding update. Removed 70486-70488, 70450, 70460, 70470, 70496; 70540, 70542-70546, 70551-70553, and 76390. They are reviewed by AIM.
11/01/16	Annual Review, approved October 11, 2016. Updated Coverage Guideline, added the words "Surgical treatment" between TMJ and orthognathic. Also expanded CPT code ranges and added descriptors. Policy moved into new format.
07/01/17	Annual Review, approved June 22, 2017. No changes to policy statement.
05/01/18	Annual Review, approved April 3, 2018. No changes to policy statement.

**Disclaimer:** This medical policy is a guide in evaluating the medical necessity of a particular service or treatment. The Company adopts policies after careful review of published peer-reviewed scientific literature, national guidelines and local standards of practice. Since medical technology is constantly changing, the Company reserves the right to review and update policies as appropriate. Member contracts differ in their benefits. Always consult the member benefit booklet or contact a member service representative to determine coverage for a specific medical service or supply. CPT codes, descriptions and materials are copyrighted by the American Medical Association (AMA). ©2018 Premera All Rights Reserved.

**Scope:** Medical policies are systematically developed guidelines that serve as a resource for Company staff when determining coverage for specific medical procedures, drugs or devices. Coverage for medical services is subject to the limits and conditions of the member benefit plan. Members and their providers should consult the member benefit booklet or contact a customer service representative to determine whether there are any benefit limitations applicable to this service or supply. This medical policy does not apply to Medicare Advantage.

**Discrimination is Against the Law**

Premera Blue Cross complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Premera does not exclude people or treat them differently because of race, color, national origin, age, disability or sex.

Premera:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, contact the Civil Rights Coordinator.

If you believe that Premera has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:

Civil Rights Coordinator - Complaints and Appeals  
PO Box 91102, Seattle, WA 98111  
Toll free 855-332-4535, Fax 425-918-5592, TTY 800-842-5357  
Email AppealsDepartmentInquiries@Premera.com

You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Civil Rights Coordinator is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at: U.S. Department of Health and Human Services  
200 Independence Avenue SW, Room 509F, HHH Building  
Washington, D.C. 20201, 1-800-368-1019, 800-537-7697 (TDD)  
Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.
